OXYGEN PEDIATRIC FLOWMETER

MODELS:  1MFA3001 (SHOWN)
         4MFA1001
         6MFA1001

SAVE THESE INSTRUCTIONS

CAUTION
Federal (US A) law restricts this device to sale by or on the order of a physician.
RECEIVING / INSPECTION
Remove the Precision Medical, Inc. Flowmeter from the packaging and inspect for damage. If there is any damage, DO NOT USE and contact your Provider.

INTENDED USE
The Flowmeter is intended for use by physicians, respiratory therapists and other authorized hospital personnel to administer selected doses of medical oxygen to a patient.

READ ALL INSTRUCTIONS BEFORE USING
This manual instructs a Professional to install and operate the Flowmeter. This is provided for your safety and to prevent damage to the Flowmeter. If you do not understand this manual, DO NOT USE the Flowmeter and contact your Provider.

SAFETY INFORMATION - WARNINGS AND CAUTION

⚠️ WARNING
Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

⚠️ CAUTION
Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury.

⚠️ CAUTION
Used without the safety alert symbol indicates a potentially hazardous situation which, if not avoided, may result in property damage.

CONSULT ACCOMPANYING DOCUMENTS

Symbol for “USE NO OIL”

Symbol for “NO SMOKING”
**WARNING**

- Use this Flowmeter only for its “Intended Use” as described in this manual.
- ALWAYS confirm prescribed flow before administering to patient and monitor flow on a frequent basis.
- This Flowmeter contains magnetic, ferrous material that may affect the results of an MRI.

**To Reduce the Risk of Fire or Explosion:**

- ALWAYS follow ANSI and CGA standards for Medical Gas Products and Flowmeters (E-7) and Oxygen Handling (G-4).
- **DO NOT** use oils, greases, organic lubricants or any combustible materials on or near this Flowmeter.
- **DO NOT** use near any type of flame or flammable/explosive substances, vapors or atmosphere.
- **DO NOT** smoke in an area where oxygen is being administered.

**CAUTION**

- This Flowmeter must be operated with the Flow Tube in a vertical, upright position.
- Only personnel instructed and trained in its use should operate this Flowmeter.
- Be sure all connections are tight and leak free.
- Only use oxygen-safe leak detector.
- **DO NOT** autoclave.
- **DO NOT** gas sterilize with EtO (Ethylene Oxide).
- **DO NOT** clean with aromatic hydrocarbons.
- **DO NOT** immerse product in any kind of liquid. This will void the warranty.
- This Flowmeter may have a factory installed restrictor. Prior to use, check product labeling for flow restrictions.
- This Flowmeter contains a glass flowtube which is fragile. Special care should be observed to avoid braking the flowtube.

**Transport / Storage Requirements**

-40°F (-40°C) to 140 °(60°C)

* Restricted Max Flush Flow

**NOTE:** Storage / Transport outside the specified range may cause damage to the flowmeter.

The effect on accuracy of flow due to variations in ambient temperature is standard accuracy +7.3% @ 0°C and -3.0% @ + 40°C. Flowmeters calibrated at 50 psi (3.4 bar), 70°F (21°C), standard atmospheric pressure.

International models are calibrated per specifications marked on Flow Tube.

Specifications are subject to change without prior notice.
OPERATING INSTRUCTIONS

⚠️ WARNING

Read this User Manual before installing or operating the Flowmeter.

⚠️ CAUTION

Inspect the Flowmeter for visual damage before use, DO NOT USE if damaged.

NOTE: Precision Medical, Inc. strongly recommends the use of kink proof Cannula.

1. Turn Knob to the “OFF” position.
2. Connect the Flowmeter to a 50 psi oxygen gas source. For international products, connect to appropriate oxygen source pressure.
   NOTE: Attaching accessories to the outlet (which may increase resistance to outlet flow) may change indicated flow but will not affect the accuracy of the flow.
3. Verify that the Float Ball is at the very bottom of the Flow Tube.
   NOTE: If the Float is not resting at the bottom of the Flow Tube, the product is leaking; consult the TROUBLESHOOTING Guide.
4. Adjust Flow:
   To increase - Turn Knob counterclockwise
   To decrease - Turn Knob clockwise
5. Set flow by aligning center of Float Ball with indicator lines on the Flow Tube.
6. Adjusting flow beyond the last calibrated indicator line will result in an undetermined flow.
7. To obtain maximum flush flow, turn Knob fully Counterclockwise.
   NOTE: Flush flow is any flow above the last calibrated line on the Flow Tube with an unrestricted flow, as per SPECIFICATIONS.

⚠️ WARNING

• To avoid injury to patient:
  ALWAYS confirm prescribed flow before administering to patient and monitor flow on a frequent basis.
• DO NOT immerse the Flowmeter in any kind of liquid. This will cause damage to the Flowmeter and will void the warranty.
CAUTION

- **DO NOT** over tighten Knob when turning off. This will cause damage to the Flowmeter.
- Pressures other than those indicated on the Flow Tube may affect the accuracy of the indicated flow.
- Gas Temperatures other than 70° F (21°C) may affect the accuracy of the indicated flow.
- ONLY use appropriate gas specific indexed fittings to connect Flowmeter to gas source. Use Oxygen connections for oxygen Flowmeters.

CLEANING INSTRUCTIONS

1. Disconnect all connections before cleaning.
2. Clean exterior surfaces of the Flowmeter with a cloth dampened with a mild detergent and water.
3. Wipe dry with a clean cloth.

TROUBLESHOOTING

If the Flowmeter fails to function, consult your Provider or Precision Medical, Inc.

Notified Body: TÜV Rheinland Products Safety GmbH C 0197
EC Certificate No.: HD 60019110 0001
LIMITED WARRANTY
AND LIMITATION OF LIABILITY

Precision Medical, Inc. warrants that the Medical Gas Flowmeter (the Product) will be free of defects in workmanship and/or material for the following period:

(a) Housing                                             Lifetime of the product
(b) Needle Valve                                         Five (5) years from shipment
(c) All other parts of the Medical Gas Flowmeter not identified in (a) or (b) above One (1) year from shipment

Should any failure to conform to this warranty appear within the applicable period, Precision Medical, Inc. shall, upon written notification thereof and substantiation that the goods have been stored, installed, maintained and operated in accordance with Precision Medical, Inc.’s instructions and standard industry practice, and that no modifications, substitutions, or alterations have been made to the goods, correct such defect by suitable repair or replacement at its own expense.

ORAL STATEMENTS DO NOT CONSTITUTE WARRANTIES.

The representative of Precision Medical, Inc. or any retailers are not authorized to make oral warranties about the merchandise described in this contract, and any such statements shall not be relied upon and are not part of the contract for sale. Thus, this writing is a final, complete and exclusive statement of the terms of that contract.

THIS WARRANTY IS EXCLUSIVE AND IS IN LIEU OF ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OTHER WARRANTY OF QUALITY, WHETHER EXPRESS OR IMPLIED.

Precision Medical, Inc. shall not under any circumstances be liable for special, incidental or consequential damages including but not limited to lost profits, lost sales, or injury to person or property. Correction of non-conformities as provided above shall constitute fulfillment of all liabilities of Precision Medical, Inc. whether based on contract, negligence, strict tort or otherwise. Precision Medical, Inc. reserves the right to discontinue manufacture of any product or change product materials, designs, or specifications without notice.

Precision Medical, Inc. reserves the right to correct clerical or typographical errors without penalty.
